

GLOBAL ACTION AGAINST MASS ATROCITY CRIMES

Platform for Prevention

Steering stronger national impact

Dear friends,

In the first semester of my Chairmanship at GAAMAC, the Steering Group and I have built upon solid foundations to expand the network's reach and focus. Looking ahead, we are finalizing our discussions around GAAMAC's Strategic Plan for 2022-2024. The document will be presented to and approved by GAAMAC's Steering Group this fall.

Our vision for GAAMAC is ambitious: to make early prevention a permanent, tangible reality on the ground. We need political will to achieve this vision, and GAAMAC's Regional and Thematic Initiatives are key to galvanizing decisionmakers. These initiatives are the relays that ground GAAMAC's ideas into local realities, so we very much hope for their development in the future.

Existing Regional Initiatives will be presenting their work **from 15 to 18 November 2021 at GAAMAC's fourth global meeting**. [Join us](#) for an online interactive dialogue on "Strengthening national efforts to address hate speech, discrimination and prevent incitement". We look forward to seeing you there.

Thank you for your work and commitment,

Judge Silvia Fernández de Gurmendi,
GAAMAC Chair

Our community in action

Sant'Egidio hosts negotiations for peace in South Sudan

Actors from South Sudan, with the help of the Community of Sant'Egidio, committed to future milestones and continued dialogue.
